

Regarding service of K-Love radio station. There are very few radio stations in the Bay Area that play Christian radio with contemporary music. K-Love is the only one that is commercial free. I support K-Love radio and would not have a viable alternative if it is no longer on the air. K-Love provides positive programming that encourages it's listeners to be peaceful and loving and productive members of society. It is uplifting and joyful. I am frequently encouraged personally as I listen to the music and programs of this station. Please do not force LPFM to replace my favorite radio station. There is none like it.
Thank you for your consideration. Hope Harper
